Re: Permit to Operate  
American Environmental Group AEG, Medical Waste Treatment Facility  
Washington County, Permit No. 94-06TP, DIN 7555

Dear Mr. Schaubach:

Enclosed is the above reference solid waste permit that approves the operation of the American Environmental Group AEG, a medical waste treatment facility and the approved copy of the application with operations plan.

In general, the facility permit does not reiterate permit conditions which are included in the Solid Waste Management Rules, 15A NCAC 13B, nor does it restate specific conditions which are included within the approved plans. However, the permit does contain a special condition addressing the establishment of financial assurance within 30 days of the permit date.

A certified copy of this permit showing current ownership and all property used for the solid waste management facility is also enclosed. It must be filed in the Register of Deeds office and indexed in the grantor index under the name of the owner of the land in the county or counties in which the land is located. The certified copy of the permit affixed with the Register's seal and the date, book, and page number of recording must be returned to the Section within 30 calendar days of issuance of this permit.

Please review the conditions of the permit thoroughly. Mr. Chuck Boyette is the Solid Waste Section Waste Environmental Senior Specialist for your facility and can be reached at (252) 794-2705. If you have questions about your permit, please contact me at (919) 508-8525 or by email at [pat.backus@ncdenr.gov](mailto:pat.backus@ncdenr.gov).

Sincerely,

Patricia M. Backus, P.E.  
Solid Waste Section
